

# Summary of the Friday Sermon Delivered by Hazrat Mirza Tahir Ahmad - Khalifatul Masih IV. On 29<sup>th</sup> November 1996 in Malmo - Sweden

Proofs have indeed come to you from your Lord; so whoever sees it is for their own good; and whoever becomes blind it is to their own loss. For I am not a guardian over you.

And thus do We vary the Signs but that they should concede 'Thou hast explained' and that We may explain it to a people who have knowledge.

Follow that which has been revealed to thee from thy Lord; there is no God but He; and turn aside from the idolaters.

*The Holy Quran.* al-An'am [The Livestock]: 105 - 107.

This Friday Sermon is being conveyed by the Television in Sweden via MTA. This age of international connections is a special mercy from Allah. Such astonishing benefits of the blessings of MTA have come before us that we could never possibly have dreamt would come to us through the grace of Allah the Almighty and there was such a need for it that we had not imagined it. This was such an important requirement that had Almighty God not led us to it by the finger we could never have possibly imagined that we even have the strength for it and at the time we really did not have it. Then Allah increased our capability to the point that MTA is delivering the message of Allah continuously for 24 hours. This is the work that even the great nations and governments of this world had no power to carry out.

Our goal is to spread little good things and give the whole world a taste for them little by little. When a good habit is established it has great strength in it. With the bounty of Allah the perceptions of our new generation are being aligned because of MTA. Our Programs contain truth, simplicity and a natural attraction. There is no Acting. When children get into the habit of [watching] these Programs then there is no stopping them.

This sermon which is being transmitted from here - Is a very great proof of the unilateralism of Ahmadiyya in the whole world and of its being a single body. We should pray that Allah may increase our unilateralism even further. It is important that such people rise all over the world that are the same in nature and connected to one nerve centre.

According to me the greatest requirement of this age is the need for good morals. Today the world stands in need for the highest standard of morals. If the state of the time is to change it will change through works of high moral values. So the only Program is to ensure that your morals are of the highest standard.

Even among the worst Societies the inner voice of the heart is always that of a yearning to be rectified through noble values. The morals of the Prophets coax this voice of the heart and in the end it is this inner voice of the heart which wins.

The Holy Prophet ﷺ taught and explained all things he learnt from Almighty God to the believers in great detail and in various ways. On the occasion of the Farewell Pilgrimage the

Holy Prophet asked the Companions whether he had delivered God's message to them clearly and appropriately. They all testified that 'Yes you have done so'. Then he stated that 'O Allah! You be a witness to it too'. The Promised Messiah (peace be upon him) also received this secret from the Holy Prophet and he has explained things clearly and in great detail.

I have for a long time been drawing attention to higher morals in the sermons. Until the noble examples of good morals are inculcated in the homes to claim that we would change the world is to dwell in a fool's paradise. The revolution of this age is related to good morals.

Adorn yourselves with the morals of the Messenger of Allah ﷺ and you would yourselves begin to glitter. The Community has a power that is spreading and that is to be Godly in poverty, to adopt the Godly morals whilst poor and to channel His attributes in your persons. The higher this power for moral good goes the more the Community would be elevated and exalted.

Today it is us more than anyone are to guard the moral values, more than anyone we are to dominate the world with the tool of adopting good morals. Even the great big nations of the world are empty of this tool. They do not even know what good values are. The values observed coming from civilisation are a farce. One can certainly observe minor light morals in the world even without belief in God but whenever they clash with their personal motives their morals disintegrate into pieces.

There is only one being about whom God said that 'thou dost surely possess high moral excellences'<sup>1</sup> and that is Prophet Muhammad ﷺ. He conquered the highest peaks of morality and that is where he sits. His Holiness the Promised Messiah (peace be upon him) says 'Expend all your power and aspiration in transforming the morals. Real bravery is that which has control to enact a change of morals'.

Raise your morals to such high standards so that immoral people who are coarse and mistreat their wives and children would seem as strangers in your company. Never treat them with open arms so as to appear as if you have given them refuge. It is your duty to migrate from the city of immorality towards the morals of the Chosen Prophet and I assure you that this migration would bring large troops of people coming in behind every one of you. May God enable you to do this.
